

## MAGMACOPPER'S OUTLOOK BRIGHT

President's Report Shows the  
Basis for Increasing and  
Continued Prosperity.

**95,000 TONS RESERVES**  
Profits on This Ore, Containing Cop-  
per, Gold and Silver, Should  
Exceed \$1,000,000.

That the Magma Copper Company is  
sharing in the prosperity which copper  
and silver are meeting, and that it is ac-  
cumulating the basis for a continued and  
substantial prosperity for the future, is  
indicated in annual report of the presi-  
dent, prepared for the stockholders' meet-  
ing next May.

The report shows that on the first day  
of this month, the ore reserves of the  
property in three claims totaled 95,000  
tons, with a copper percentage of 7.50;  
silver deposits valued at \$8.15 cents per  
pound, and gold deposits valued at 56  
cents per ton.

Operating on the present basis, accord-  
ing to the report, the profits on this ton-  
nage with copper selling at 14 cents a  
pound will amount to \$1,000,000.

The report says:

**\$500,000 Yearly Profit Expected.**  
It is reasonable to assume that the  
level is in excellent order. With a pro-  
duction of 50,000 tons of ore annually of  
average grade, there will result a profit  
of approximately \$500,000 per year, as-  
suming a selling price of copper at 14  
cents per pound.

The Magma Copper Company owns the  
property formerly known as the Silver  
Queen Mine at Superior, Pinal County,  
Ariz., also other contiguous mining  
claims, aggregating approximately 346  
acres, and also owns 133 acres in millites  
and other localities.

"The mine has been partially prospected  
and developed to the 1,000 foot level, the  
total development work to February 1,  
1915, consisting of drifting 5,736 feet, rais-  
ing 2,451 feet, sinking 72 feet and cross-  
cutting 3,100 feet. From this development  
work and some stoping there have been  
mined 44,575 tons of ore averaging copper  
8.15 per cent, silver 3.27 ounces per ton  
and gold 0.50 per ton, the copper being  
mostly in the form of chalcocite. The  
total shipments from the above tonnage  
have been 13,320 tons, averaging copper  
7.73 per cent, silver 21.55 ounces per ton  
and gold 0.50 per ton, from which net  
smelter returns of over \$640,000 have been  
received and expended in transportation,  
mining and development work on the property."

"The company has recently completed a  
concentration and oil flotation mill  
having a capacity of 4,500 tons, which  
is connected with the mine by an  
aerial tram 2,500 feet in length. The mill  
commenced operations in August, 1914,  
but will not be in capacity until the  
new shaft is completed.

"During January and February, 1915,  
5,832 tons were treated and an operating  
profit of \$22,000 per month made with  
copper selling at 14 1/2 cents and after  
deducting expense of hauling the product  
thirteen miles by teams and seventeen  
miles by narrow gauge railroad to the  
Arizona Eastern Railroad. The cost of  
producing copper during these periods,  
taking credit for silver and gold values,  
was 8.5 cents per pound."

## "MOVIE" CENSORSHIP TO BE BANQUET TOPIC

Exhibitors and Exchange Men Will  
Discuss Pending Bill at Dinner  
Next Thursday.

Discussion by members of Congress  
and others of the proposed bill as intro-  
duced by the Education Committee of the  
House in reference to censorship of mov-  
ing pictures will be the topic of a ban-  
quet to be given at the  
New Ebbitt Thursday night by the mov-  
ing picture exhibitors and exchange men  
of Washington. Several representatives  
will deliver addresses on the proposed  
legislation.

These members of Congress, it is said,  
consider the proposed bill for more rigid  
censorship of moving pictures merely a  
step toward a similar censorship of the  
press of the United States. With this  
view they have formed the nucleus of the  
opposition fight in the House.

Plans looking to the improvement of  
the class of films to be shown in Wash-  
ington and other conditions in the motion  
picture theater also will come up for dis-  
cussion.

The exchange men's banquet committee  
is composed of Frank Spurrier, Carl F.  
Sennings, L. M. Day, Frank Brown, C. W.  
Bunn, Sydney Link-Lust and Arthur  
Osborn. The exhibitors' committee is  
H. M. Crandall, Tom Moore, Dr. W. P.  
Herbst, Harry Wolf and Joseph P. Mor-  
gan.

## MONIST PHILOSOPHY AT SECULAR LEAGUE

Dr. T. A. Williams Insists Healthy  
Physicist Being Knows Nothing  
of the Supernatural.

That religious experience and belief are  
due to physical disturbance and abnor-  
mality and particularly to derangement  
of the nervous organism of the body, was  
the theme of a paper read by Dr. Tom  
A. Williams, 1706 N. Street northwest, be-  
fore the Washington Secular League at  
its meeting at Pythian Temple yesterday  
afternoon.

Dr. Williams, a specialist in diseases of  
the nervous system, insists that people  
who are normal and healthy know nothing  
of the supernatural, mythical and occult,  
and know only the natural and the rational.

Following the address the subject was  
discussed by Prof. Hyland C. Kirk,  
Thomas B. Eckloff, Samuel Saloman,  
Julian Pierce, Lawrence Becker, Solicitor  
for the Treasury Department, and J. W.  
McBurney. It was announced that Dr.  
Charles H. Bowker would address the  
league at its meeting next Sunday after-  
noon.

Preceding the address by Dr. Williams,  
a poetic recitation was given by H. W.  
Seloh, and a prologue was given by Prof.  
Hyland C. Kirk, who presided in the ab-  
sence of the president, John D. Brad-  
ley.

In two lectures delivered under the  
auspices of the league at Pythian Temple  
on Thursday and Friday evenings Mar-  
tin L. Bunge, of Milwaukee, editor of the  
German freethought paper, Die Freiden-  
ker, and vice president of national  
lecturer for the Rationalist Association  
of North America.

## Marvelous Interest Shown in the Contest of the "50,000 Club"

Six Days Remain of Special Offer to Increase the Vote You  
Have Cast in Race Being Conducted for More Sub-  
scribers to The Washington Herald.

Marvelous! No other word could define  
the interest shown on every hand in The  
Herald's subscription campaign. The  
"50,000 Club" is the one great fascination  
for all who recognize opportunity.

Those who have been watching the race  
between the members of the club and the  
progress in the direction of bringing  
about the desired increase in the circula-  
tion of The Herald cannot help but notice  
the keen interest of the members of the  
club and those supporting them. The mem-  
bers are seeking votes everywhere, and  
it may be said, in passing, that those  
who go about this systematically will be  
the winners of the fifty splendid prizes  
when the final results are announced.

**Lead Short Way Off.**  
To begin with is a great advantage to  
members. But it is more important that  
this be followed by steady accomplish-  
ments. It inspires one's friends and  
rouses confidence and enthusiasm, which  
are the prime factors to success.

It takes but a few votes to place a  
member in the lead in the friendly race  
for votes, and once the lead is attained  
the prestige gained thereby will result in  
added interest on the part of your friends  
and this will mean added votes.

There is no time like the present to  
make a clean sweep. You are subscrib-  
ing the most votes for your subscrip-  
tion. The special ballot offer, which en-  
titles you to 25,000 extra votes with every  
\$15 worth of new subscriptions may, if  
taken full advantage of before the offer  
closes Saturday, February 25, at 11  
o'clock, put you on "Easy Street" for the  
rest of the campaign.
